- March 2002      State of New Jersey serves Beta Alpha with Fire Code Violation.  
Not in compliance with automatic fire sprinkler system requirements per NJAC 5:70 4.5 All dorms and Fraternity and Sorority housing must be equipped with Fire Sprinklers. All buildings without must be retrofitted. Legislation was a result of the fatal Jan 2000 Seton Hall dormitory fire. Universities are given four years to comply. They must complete a minimum of 25% per year, and be 100% compliant by July 2004. How do you do 25% minimum per year for a single Fraternity House? We requested an exemption from the 25% per year minimum, but to be held to the July 2004 dead line. DENIED.  
Sought a variance, conditions were unacceptable. We appealed.
